**COMPANY INFO**

At Velcom, we have high standards. Our primary goal is to be the strongest, most reliable and sound Internet Service Provider in Canada. We put our years of experience to work for you every day, and are committed to providing 100% customer satisfaction to every client.

Many ISPs entice new clients with a set of low price points that seem too good to pass up. Unfortunately, they are also too good to be true. Very quickly, the hidden costs of these "super-saver" ISP's become painfully clear: Reduced customer support, limited uptime, suspect security, and other hidden costs that can't be seen until it's too late to the dollars lost on the back end.

At Velcom, we offer a cadre of competitively priced services without sacrificing speed, efficiency or reliability. Sign up now!
